The following is an examiner's statement of reasons for allowance: the claims in this application have been allowed because the prior art, alone or in combination, does not disclose a method of processing pigskins having a moisture content of 50-80% by weight, comprising the steps of: a) lime-alkali processing the skins by applying a paste to the skins until colloidal protein in the skins is dissolved, the paste comprising a mixture of alkali liquid, alkali enzymes and lime; b) washing the skins in ammonium chloride or chloride sulphate and then cleaning the skins in water; c) washing the skins in ammonium chloride or chloride sulphate, and in enzymes to soften and expand the skin; d) removing the fat from the skins; e) bleaching the skins with hydrogen peroxide or potassium permanganate; nor is there disclosed an animal chew product comprising pigskin having its colloidal protein removed, wherein the pigskin is expanded.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
